CHANDELIER CLUSTER

The Chandelier Cluster is the most versatile canvas, mix-matching form and colour this platform can harmonise with any interior. The hand-blown handkerchief is inspired by traditional Venetian techniques, no two pendants are the same adding to the individual nature of the entire work. Combinations of modern colours complement mood provoking interiors, providing you with the ability to create cohesive, dynamic and thoughtful spaces.

Please contact us directly for your personal professional consultation regarding what colours and forms may best suit your interior.

Each pendant is sold with all fixtures including;

1.5m Black Chord, E27 Lampholder, LED filament bulb, washers, chord grips.

A gathering ring is provided to 'cluster' the pendant chords together and deliver the final aesthetic. Ceiling roses are available on request with an added cost.

All pendants must be installed by a certified electrician.

Size: Each pendant is approx. 30cm H x 20 - 25cm W
RRP \$360.00 Each + GST + Freight. (Including Fixtures).
Colour: Various.

Groupings of 3, 6, 9, 12 or more are recommended.
Prices increase or decrease incrementally according to quantity.
Please inquire directly for accurate quote and availability.

CANE SPHERE

Venetian style cane spheres overlay coloured pendants to provide a multi-optional, multi-layered depth of volume, space and form. Any combination of colours can be specified. The interior colour of the dynamic two-part pendant will cast that coloured illumination.

To create the stripes in the work a two-part process is required, firstly the solid coloured cane (stripe) is pulled like candy, cut and then picked up again on molten glass and blown into the spherical form. Movement of the cane can be seen in the form as it has progressed through the making process.

MURRINE SPHERE

Venetian style Murrine spheres are created in any combination of colours. We are always available for consultation to suggest the ideal colour combinations to deliver the best results.

To create the murine spheres a two-part process is required, firstly combinations of coloured cane are pulled like candy, these are then cut and picked up again on molten glass and blown into the spherical form. Movement of the cane can be seen in the form as it has progressed through the making process.

Size: Spherical Form with stripes 22cm H x 22cm W.
RRP: \$450:00 each + GST + freight (including fixtures).
Cane Spherical Form with internal coloured pendant
RRP: \$600:00 + GST + freight (including fixtures).

Size: 22cm H x 22cm W.
RRP \$590.00 Each + GST + Freight. (Including Fixtures).
Colour: Various.

BOTTLE PENDANTS

RUTH creates bespoke up-cycled pendant lighting specializing in domestic, commercial and hospitality spaces.

Our Melbourne based studio collects bottles from our local community to then wash, cut and prepare for the hot process. Using traditional glassblowing techniques and purpose built equipment we heat, stretch, inflate and manipulate each bottle into a unique artwork.

"I enjoy participating in a sustainable movement and contributing to creating environments that spark peoples imagination and challenge preconceived ideas of the world around them."

Community is a cornerstone of thinking and practice at RUTH inspiring us to forge vital relationships with bartenders, restaurateurs and barista's, all of whom are excited to save and collect beautiful bottles. Over time we have become well connected throughout Melbourne city carving alliances with souls who are delighted by the notion that they are contributing to an effort that makes a difference. This work in itself sends a loud message about humanities desire to live carefully and reject the excessive nature of our material culture.

9 x Pendant Black Sambuca
RRP: \$2850 + GST + Freight (including fixtures).

12 pendant Champagne Bottle Chandelier
RRP: \$3750 + GST + Freight (including fixtures).

BOTTLE PENDANTS

The BIG bottle was originally hand blown in Italy and imported by a wine merchant who ultimately ran out of warehouse space. He contacted me with days to spare stating that if I couldn't take the 5 x pallets of them he would need to throw them to recycling. We have 120 in stock and once this quantity is exhausted I can't see myself getting my hands on anymore... but who knows?

The base of the 1.5L bottle has been cut and ground, the neck is turned Blackwood and made in Melbourne.

The pendants weight is supported using a perspex donut held by 2 x stainless hair line cables rated at 9kg each, the lampholder self locates into the donut during installation.

Illuminated by 30cm zig-zag LED bulb.

We encourage clients to save bottles with sentimental significance.

A romantic dinner for two, Birthday, Anniversary, a send off party for a work colleague, collect your bottles, send them to us and we will transform them into a life long commemoration of your event for no extra cost.

If you would like to share our work easily with a friend, client or colleague please visit this 2 minute video which succinctly delivers what our reclaimed bottle business stands for and how we do it. ruthallen.com.au/pages/about-us
